Its ACO 1 fund is based in Luxembourg, and the new office will support further investment vehicles

- **What** Arrow Global has opened an office in Luxembourg to complement its Jersey HQ
- **Why** Its ACO 1 fund is based in Luxembourg, and the new office will support further investment vehicles
- **What next** The new office will initially be made up of a fund treasury team with a multi-disciplinary team built up over the next 24 months

Arrow Global has opened its second office, in Luxembourg, after its main HQ in Jersey.

Arrow's ACO 1 fund vehicle is located in Luxembourg, so the opening of the local office will provide better infrastructure for the current and future investment

vehicles. The new office will initially be made up of a fund treasury team and then a multi-disciplinary team over the next 24 months.

Arrow Global CFO Andrew Grimditch said: “The opening of this new office supports our Luxembourg-based fund vehicles. Our local platform strategy that allows us to identify the best risk-adjusted returns across our key markets also extends to our fund administration and operational services.”

AGG Capital Management, which serves as the fund and investment manager to the Fund, will continue to be based in Jersey.
